

# Apex AnyWhere™ Self-Serve Solutions

Powered by Apex Connect n' Go™ Technology

## Apex Axxess™ 6100 Series Shallow-depth automated self-serve lockers ideal for DC and POS mobile device management

### Secure Access

Control access based on job roles, departments and more

### Versatile Compartments

Manage, track and control DC or POS scanners, two-way radios, tablets and other mission-critical devices

### Compact Footprint

Shallow-depth design provides high-density storage with maximum clearance

### Supports a Wide Range of User ID

Choose from barcode, magnetic stripe, proximity card or keypad entry

### Keep Assets Charged

Compartments can be wired to recharge devices so they're always ready to work

- **Keep your DCs ready for "real-time retail"**

With mission-critical devices organised and ready to work 24/7, your teams stay productive and perform at their best.

- **Secure check-out and check-in**

High-cost scanners, tablets and radios can be checked out, their usage recorded, and checked back in. You will always know when an item has been checked out, and when it was returned. You can set loan periods and notification alerts for overdue items.

- **Increase accountability and responsible use**

Ensure better care of expensive devices and reduce loss and damage. Battery-powered devices can be set to recharge upon return and locked down until they're fully charged and ready to work.

- **Manage service, inspection and repair**

Receive automated alerts when devices are due for scheduled service or inspection, or are in need of repair.

1 Choose from our space-saving internal controller or versatile stand-alone controller.

2 Place lockers within easy reach with a pedestal, sold separately. Shelves are available for extra storage.

## Choose from a Variety of Flexible Configurations

**AXCESS 6109.2**  
2-High 9-Door Locker  
Height: 762 mm  
Weight: 54 kg

112 mm H x 279 mm W x 273 mm D

Combine rows of 3 or 6 doors; up to 36 doors per locker. Maximum of 108 doors per stand-alone controller.

### Trajectory Cloud™: Real-Time Control, Tracking and Insights

Our Trajectory Cloud™ platform makes these smart devices absolutely brilliant. You'll know who used what, when and where, 24/7. And you can set up automated alerts and notifications to reinforce established processes and monitor activity patterns. Plus, the electronic audit trail provides detailed documentation for automated compliance management.

### Apex Connect n' Go™ Technology Makes It Easy to Implement

All Apex devices are easy-to-use Internet appliances (MS Windows-free). They're powered by our Connect n' Go™ Technology, so you simply plug the device into a power supply, connect to the Internet and you're ready to go.

Standard colours are grey and black. Optional private branding and custom colours available.

### Easy to Use. Easy to Implement. Easy to Afford.
