

Apex Actylus™ 8100/8200 Series Smart Bin System

Powered by Apex Connect n' Go™ Technology

Right-time, right-size bin replenishment
with benchtop convenience

Set Up to Four Restock Levels

Each bin can be taught up to four inventory levels – full, replenish, critical and empty – and sends real-time replenishment alerts

Taught Level Indicator LED

The LED under each bin indicates its current inventory level

Bright Lighting

Interior LED lights keep bin contents visible to ensure quick item selection with no surprises

Flexible Bin Configurations

Create the ideal solution for both large and small components, parts and materials

Easy Replenishment

Restock in established quantities, full packages, boxes or Kanban lots

Fast and Easy Set-Up

Designed for quick assembly and same-day set-up – no complicated pre-implementation process or lengthy product testing. Just three simple steps – assemble, connect, teach – it's that easy

- **Your supply chain talks to you**

Smarter Spaces™ technology eliminates the tags, flags and cards of manual monitoring with proactive restock and reorder alerts right to your ERP.

- **Keep lines up and running**

Real-time replenishment alerts and automated ordering put an end to out-of-stocks and emergency orders – and keep everyone working.

- **Visualise your supply chain**

With Trajectory Cloud™ Business Intelligence tools, you can view real-time information and see changes in usage patterns, consumption trends, productivity and more.

Single-wide and double-wide bins are ergonomically designed to make it easy to scoop up small parts or bulky, irregularly shaped items.

Available colours are orange, blue, red, yellow* and green*. Custom colours available with minimum quantity and additional charge.

*Additional lead time required.

A Benchtop Solution for Assembly and Manufacturing Cells

Trajectory Cloud™: The Secret to Making Spaces Smart®

Our Trajectory Cloud™ platform consolidates all data from Apex ACTYLUS™ Bins, giving you and your customers the power to manage supplies with 24/7 visibility into real-time usage and long-term trends.

Apex Connect n' Go™ Technology Makes It Easy to Implement

All Apex devices are easy-to-use Internet appliances (MS Windows-free). They're powered by our Connect n' Go™ Technology, so you simply plug the device into a power supply, connect to the Internet and you're ready to go.

Easy to Use. Easy to Implement. Easy to Afford.
